Telephone Support

Technical Support will answer technical and troubleshooting questions regarding your Kiwi Wifi during normal business hours. +1 (408)745-7591

Step 1:

Connect the OBDII cable to your vehicle's OBDII port

0:15

Step 2:

Go to settings on your iPhone/iPod Touch

0:28

Step 3:

Go to Wi-Fi setup menu

0:35

Step 4:

Turn on Wi-Fi and connect to PLXDevices

0:45

Switch the WiFi to the ON position. Tap on PLXDevices and then tap on the blue right arrow.

Tap on static and enter 192.168.0.11 into the IP Address field and 255.255.255.0 into the Subnet Mask field. Leave all other settings blank.

Step 5:

You're done!

Depending on the application you use, you may be asked to enter the following information.

IP Address: 192.168.0.10

Subnet: 255.255.255.0

Port: 35000

Times may vary depending on how excited you are to use the Kiwi Wifi.

Kiwi Wifi is compatible with Rev, DashCommand and FUZZYCar. Download them today.
